## Housing quality and maintenance

### Quality of housing

#### Scottish Housing Quality Standard (SHQS) – Stock condition survey information (Indicator C8)

C8.1	The date your organisation's stock was last surveyed or assessed for compliance with the SHQS	03/2024
C8.2	What percentage of stock did your organisation fully assess for compliance in the last five years?	100.00
C8.3	The date of your next scheduled stock condition survey or assessment	03/2025
C8.4	What percentage of your organisation's stock will be fully assessed in the next survey for SHQS compliance	100.00
C8.5	Comments on method of assessing SHQS compliance.	

Stock is surveyed on a continuing basis as properties become void or have maintenance works carried out. The survey results are recorded on individual property ledger files which reflect Scottish Government criteria for pass / fail / exempt / in abeyance. Compliance with SHQS is ensured by instructing, on an ongoing basis, any works deemed necessary to ensure ongoing compliance.

A full external condition report for all properties was undertaken by a consultant architect during 2019 / 2020. The results of that report informed planned maintenance works to common areas following consultation with sharing owners where applicable. Following completion of a recent tender process, an updated survey has been instructed to be carried out during the course of 2024 / 2025. The results of this survey will feed into planned maintenance requirements for the next five years to ensure ongoing SHQS compliance.

An assessment of roof structures, roof coverings and rainwater goods is carried out on an annual basis by external contractors to ensure continued compliance in these key areas.

## Annual Return on the Charter (ARC) 2023-2024

Comments for any notable improvements or deterioration in performance, or compliance with tenant and resident safety requirements regarding the figures supplied in the "Housing quality and maintenance" section, including non-compliance with electrical, gas and fire safety requirements and plans to address these issues.

During the course of the reporting year, the Association met its statutory duty for every property in relation to the completion of gas safety checks by the renewal date.

In the case of one property, an EICR was not renewed within five years of the anniversary date and was not completed by 31 March 2024. The Association managed to gain entry into this property during early April and the EICR was completed confirming that the electrical installation was safe with the certificate confirming the installation as 'satisfactory' with no repair works required. The Association currently holds a valid EICR for all lettable properties.

With regards to fire safety requirements, the Association met its statutory obligations in accordance with the Housing (Scotland) Act 1978 (Tolerable Standard) (Extension of Criteria) Order 2019 by completing the installation of interlinked smoke alarms and heat alarms to all properties prior to February 2022. All properties with a gas appliance are fitted with the necessary carbon monoxide detectors.
